

# Current Central Government Delivery Landscape

We currently have over 350 contractors out working within Central Government, a third of which fall within digital programmes and projects. Our clients include the following organisations:

## B&C'S AGILE SERVICES PROVISION

- ➔ Badenoch & Clark also provide Digital services and work packages across Government and the Public Sector. They are usually smaller, niche consultancy packages, or specific agile phases of delivery with teams consisting of around 5-10 resources.
- ➔ We collaborate with skilled associates at all levels to ensure we have the right methodology for the project, and that our teams are made up of the right skill sets.

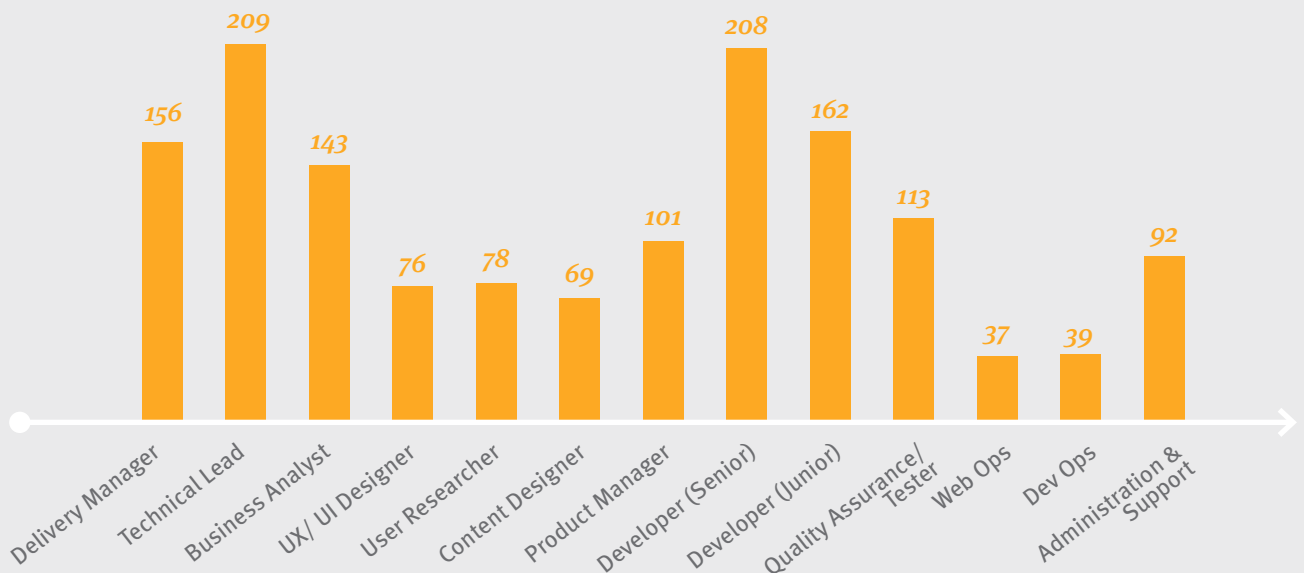

- ➔ We are able to scale up or down at any given time, and can tailor our services in line with both our client's and their user's needs.
- ➔ We also partner with digital consultancies whereby allowing us to parachute in teams that are already formed, and who have already worked together to deliver digital outcomes.

# Digital Delivery Snapshot\*

CLIENT	TYPE OF DIGITAL SERVICE
